CLEANING INSTRUCTIONS

Quality, technological processes and materials are the features that determine the high standards of our accessories. However, to avoid surface alternations, it is necessary to follow a few guidelines.

- Clean all finishes exclusively with soap and water, and dry with a soft cloth.

- Do not use coarse cloths, abrasive products, acids, ammonia products, caustic substances, bleach or solvents.

- In case of contact with these substances, rinse surfaces immediately and wipe dry.

- Remember that even fumes can damage metal. Wash accessories next to the toilet bowl at regular intervals to avoid corrosion.
