

TOILETS

NOVA SPIN

NOVA SPIN is a highly innovative gun mount designed for Police, Military or the Market between these products. Additionally, we designed two additional support solutions. The standard gun mount is based on a standard base, creating a strong, easy connection with the weapon. But the gun's base became a ready choice for those who need a specific design and color.

EXCEPTIONAL QUALITY

Our products are manufactured in the heart of the Netherlands using the best materials and advanced production techniques. Each part is inspected 8 times to guarantee superior quality.

EXCELLENCE

With our 8-year experience in Europe, we operate 100 Dutch factories, a distribution network across your entire region, quality standards, and efficient service.

LOCAL SUPPORT

By knowing an area and having design partners, we ensure you have the best of both worlds: design excellence and local support and up-to-date features.

VERSATILE AND DURABLE

Our seats and components are made from all-weather parts, all a result of our long relationship with you.

ONE-PIECE TOILETS

The One-Piece toilet is designed with the elegant, gently curved lines of a traditional pedestal toilet.

The sturdy, modern, and comfortable lines of the new generation, with the smooth, clean lines of the pedestal toilet, are now in one. To meet everything you need.
